

MEGHARAJ D N

Doddasomanahalli, K R Pete, Mandya, Karnataka • +91 6362794860 • megharajdngowda@gmail.com • linkedin.com/in/megharaj-d-n-9a1a4a386 • github.com/mjgowdru

AI & Machine Learning student with hands-on experience building intelligent applications spanning NLP, machine learning, and blockchain. Passionate about solving real-world problems with AI and continuously learning modern technologies.

EDUCATION

B.E. in Artificial Intelligence & Machine Learning Adichunchanagiri Institute of Technology, Chikmagalur VTU	2025 – 2027 (Expected)
Diploma in Computer Science & Engineering Government Polytechnic, K R Pete	2021 – 2024
SSLC (10th Standard) Karnataka Secondary Education Examination Board	2021

INTERNSHIP

Cybersecurity Intern Infotise IT Solution, Bengaluru	Jan 2024 – Apr 2024
- Completed cybersecurity training and awareness program - Gained knowledge in network security, threat detection and risk analysis - Learned about common cyber attacks, vulnerabilities and security best practices - Understood tools and concepts such as Kali Linux, Wireshark and Nmap	

PROJECTS

AI-Based Semantic Plagiarism Detection

Developed an NLP-based plagiarism detection system using Sentence-BERT (SBERT), cosine similarity and TF-IDF. Generates detailed similarity reports with highlighted matching content and an overall plagiarism score.

Python | SBERT | Scikit-learn | NLP | Flask | PyTorch

Blockchain Certificate Verification System

Built a secure certificate verification platform using Solidity, Hardhat, React, Flask, MongoDB and QR code verification, ensuring authenticity and tamper-proof storage on the blockchain.

Solidity | Hardhat | React | Flask | MongoDB | QR Code

AI Mock Interview Platform

Designed an AI-powered mock interview platform with speech processing, NLP-based question generation, automated answer evaluation and personalized feedback.

Python | NLP | Speech Recognition | Machine Learning | Flask

SKILLS & OTHER

Programming & Database: Python, SQL, MongoDB, C

AI & Machine Learning: Machine Learning, Deep Learning, NLP, Generative AI, Scikit-learn, PyTorch, SBERT, TF-IDF

Tools & Technologies: Git & GitHub, VS Code, Jupyter Notebook, Flask, Postman

Coursework: Data Structures & Algorithms, Database Management Systems, Machine Learning, Artificial Intelligence, Operating Systems, Computer Networks

Languages: English (Professional), Kannada (Native), Hindi (Fluent)

Technical Strengths: Strong problem solving and analytical skills; solid understanding of ML algorithms; experience building end-to-end applications; quick learner, adaptable to new technologies; passionate about AI and real-world impact
